Experience

Wordpress & Frontend Developer

interiorloka.com

Pekalongan, Indonesia – Fulltime

Jan 2021 – Now

I work as a WordPress Developer at Interiorloka.com, an interior design platform that connects customers with trusted design professionals. My responsibilities include building and maintaining the company website using WordPress, developing custom themes, and optimizing page speed and SEO. I also integrated various plugins and customized WooCommerce features for online service booking. I collaborate closely with the content and design teams to ensure website consistency and user-friendly UI. Additionally, I manage domain, hosting, and handle regular backups and security updates.

Founder & Wordpress Developer

halihabstudio.com

Pekalongan, Indonesia – Fulltime

Mar 2023 – Now

I founded Halihab Studio, a freelance-based web development service focused on creating custom WordPress websites for small businesses, startups, and personal brands. I lead all aspects of the business, from client communication and project scoping to design, development, and deployment. I build custom themes, implement WooCommerce for e-commerce clients, optimize SEO and performance, and offer website maintenance services. Over the years, I have worked with clients from Indonesia, Malaysia, and several other countries, delivering more than 40 professional websites tailored to client needs.

Wordpress Developer Awanna Digital

awanna.co.id

Surabaya, Indonesia –

Fulltime Remote

Des 2023 – Now

As a WordPress Developer at Awanna Digital, a creative digital agency based in Surabaya, I am responsible for developing and maintaining custom WordPress websites for a variety of clients. I work closely with the design and project management teams to turn Figma mockups into responsive, fast-loading, and SEO-optimized websites. My tasks include theme customization, plugin integration, troubleshooting technical issues, and implementing best practices in performance and security. I also assist in deploying websites to live servers and providing ongoing technical support to clients.
